Dear Friend and Colleague,

On behalf of the International Association of Endodontic Associations (IFEA) and the Hellenic Endodontic Society we are very pleased to invite you to the IFEA 8th Endodontic World Congress, to be held in Athens, Greece, on October 6-9, 2010.

Athens, named after Athena, goddess of wisdom and knowledge, represents more than 3000 years of Hellenic and Byzantine culture. In the aftermath of the 2004 Olympic Games, it is a modern, vibrant city with intense cultural and artistic activity and a very lively nightlife. Athens, with its blend of history and modernity, together with its natural beauty and mild climate, is a unique and interesting city to visit and enjoy.

The Organizing Committee is preparing a comprehensive scientific programme which addresses the needs of our clinical discipline from both the scientific and practical aspects. Plenary symposia, lectures and workshops will be given by distinguished clinicians and leading experts in endodontics. Our young and talented clinicians and researchers will also have the opportunity to present the fruits of their latest endeavors.

In the large trade exhibition which will be held at the Congress venue, the international dental companies will be eager to show you the latest advancements in endodontic devices, materials and equipment.

Last but not least, an attractive and full of activities social programme will give you the opportunity to meet old friends, to make new acquaintances and to enjoy the traditional Greek hospitality, food, music and dance.

We cordially invite you to participate in an unforgettable Congress in the birthplace of philosophy, science and medicine.

Panos Panopoulos
Congress President

George Siskos
President, Hellenic Society of Endodontics
The Organizing Committee is delighted to announce that the Scientific Programme will include the following Keynote Speakers:

Prof. Paul V. Abbott, Australia

“Root Canal filling concepts, techniques and materials – do we have the evidence to support what we do?”

Prof. Paul Abbott is the Winthrop Professor of Clinical Dentistry at The University of Western Australia where he is the Deputy Dean of the School of Dentistry and the Director of Postgraduate Studies and Research. He also co-ordinates and teaches both the undergraduate and postgraduate endodontic training programmes. Prof. Abbott is a Specialist Endodontist and he works in a private practice on a part-time basis. From 2003-2009, he was the Dean of the School of Dentistry and Director of the Oral Health Centre of WA. He has lectured extensively with over 550 presentations in 32 countries. He has written a comprehensive review of “Endodontics and Dental Traumatology” which is used in most dental schools in Australia and several other countries. He has published 80 scientific articles in refereed dental journals, contributed to 11 chapters to textbooks and serves on the Editorial Boards and Scientific Review Committees of 15 international dental journals. Prof. Abbott is currently the Immediate Past President of the International Federation of Endodontic Associations (IFEA). In 2004, he was awarded the University of Western Australia’s Excellence in Teaching Award and in 2008, the Australian Dental Association awarded him the ADA Service Medallion for his long-term service to the dental profession.

Prof. J. Craig Baumgartner, USA

“How Effective is Root Canal Debridement and Disinfection?”

Received a BS in Pharmacy from the University of Wisconsin, a DDS from the University of Minnesota, an MS in Oral Biology from George Washington University and a PhD in Microbiology/Immunology from the University of Maryland. He is a Diplomate of the American Board of Endodontics and past President of the American Board of Endodontics. He previously was Chief of Microbiology and Director - Advanced Education Program in Endodontics at the United States Army Institute of Dental Research and Walter Reed Army Medical Center. He is currently Professor, Chairman of the Department of Endodontontology and Director - Advanced Education Program in Endodontics at the School of Dentistry, Oregon Health & Science University. Dr. Baumgartner has a microbiology research laboratory for the study of microorganisms associated with infections of endodontic origin. He has published over 100 research articles, twelve chapters for textbooks and was co-editor of the 6th edition of Ingle’s Endodontics. He was previously Associate Editor of the Journal of Endodontics. He practices in the Faculty Dental Practice at the School of Dentistry, OHSU.

Prof. Shimon Friedman, Canada

“The current best evidence for Endodontic Treatment Outcomes”

Dr. Shimon Friedman is Professor and Head of Endodontics, and Director of the M.Sc. Endodontics Program at the Faculty of Dentistry, University of Toronto. He received the D.M.D. degree (1975) and certificate in endodontics (1983) from the Hebrew University in Jerusalem, where he had taught for 17 years before assuming the position in Toronto. Dr. Friedman is board-certified in endodontics in Israel, and served as Chairman of the Isc Society from 1985 to 1988. He has served on the editorial boards of all major rael Endodontiendodontic journals, and as Co-chief Editor of Visual Endodontic Curriculum. Dr. Friedman has published over 125 articles in peer-reviewed scientific journals, 10 textbook chapters and many research abstracts, and has presented over 230 national and international lectures. In recognition of his research contributions, Dr. Friedman was awarded the 2008 Louis I. Grossman Award by the American Association of Endodontists. Dr. Friedman also maintains a private practice limited to Endodontics in Toronto.
Prof. Ken Hargreaves, USA  
“An overview of Regenerative Endodontics”  

Ken Hargreaves received his DDS from Georgetown University School of Dentistry, his PhD in physiology from the Uniformed Services University of the Health Sciences in Bethesda, MD, and his certificate in Endodontics from the University of Minnesota. Ken was a senior staff fellow at the Pain Clinic of the Neurobiology and Anesthesiology Branch of the NIDCR for five years, and then associate professor of Endodontics and Pharmacology at the University of Minnesota for seven years. He joined the University of Texas Health Science Center at San Antonio in 1997, as professor and Chair of the Department of Endodontics, with a joint position in the Departments of Pharmacology, Physiology and Surgery. He has maintained a private practice limited to Endodontics and is a Diplomate of the American Board of Endodontists. His area of research focuses on the pharmacology of pain and inflammation. Ken has received an NIH MERIT Award for pain research and two IADR Distinguished Scientist Awards. He has published more than 130 articles and, with Harold Goodis, co-edited Seltzer and Bender’s Dental Pulp, and with Steve Cohen, co-edited Pathways of the Pulp. Ken also serves as editor of the Journal of Endodontics.

Prof. Dr. Edgar Schäfer, Germany  
“An Evidence-based approach on mechanical preparation of the root canal system”  

Born 1961. 1988 gained Dr med dent; 1996 PhD thesis and appointment as “Privatdozent”; since 2002 Professor at the Department of Operative Dentistry, University of Münster, Germany.  
Since 2008 head of the Central Interdisciplinary Ambulance in the School of Dentistry, University of Münster; Germany.  
Between 1995 and 2005 executive board member of the German Association of Operative Dentistry (DGZ) and from 2004-2009 executive board member and since 2009 chair of the Study group for Endodontology and Traumatology (AGET) associated with the German Association of Operative Dentistry.

Certified specialist for Endodontology of the DGZ; active and certified member of the European Society of Endodontology (ESE); associate member of the American Association of Endodontists (AAE).  
More than 180 publications and contributions to several textbooks; nearly 300 lectures all around Europe and North-America. Editor of 3 textbooks.  

Prof. Syngkuk Kim, USA  
“Endodontic Microsurgery. An evidence-based approach”  

Dr. Kim is the Louis I. Grossman Professor and chairman of the Department of Endodontics at the School of Dental Medicine, University of Pennsylvania. He earned his dental degree and certificate in Endodontics from the School of Dental and Oral Surgery at Columbia University in New York. Dr. Kim also received his Ph.D. degree in circulatory physiology from the Department of Physiology at the Medical School, Columbia University. In 2002 he received an Honorary Medical Doctor degree from the University of Graz, Austria.  
Dr. Kim is well known and respected for his research in dental pulp physiology and microcirculation and the AAE has awarded him the Louis I. Grossman Award for outstanding research and the Ralph F. Sommer Award as principal author of “publications of significance in the science and art of endodontics.” He is also the 1991 recipient of the Endodontic and Pulp Biology Research Awards from the IADR. When he joined the Dental School at the University of Pennsylvania in 1992 as chairman of the Department of Endodontics, Dr. Kim not only brought the department into the “New Age” of the Microscope but also established the Microscope Training Center at the School. For this new field in endodontics he developed a series of endodontic instruments for endodontic microsurgery, specifically the KiS ultrasonic tips and a complete microsurgical instrument set. Since its inception, leaders in endodontic education and clinical practitioners from the USA, South America, Europe, Asia and Australia have been trained at the Center.

Colleagues are cordially invited to present the results of their research and clinical endeavors. Participants wishing to contribute to the Scientific Program of the Congress are kindly requested to submit their abstracts before May 1st, 2008, together with the registration form and the registration fee of at least one author (Presenting).

Interested presenters can participate in one of the following sessions:

1. Free Lectures
   The Organizing Committee invites colleagues to deliver a 30-45 minutes lecture on an endodontic subject of the speaker’s choice. The topic must relate to a clinical or scientific issue. Applications must be made by submitting an abstract. The selection will be made by the organising committee according to the scientific merit.

2. Oral Presentation of Research
   The research work submitted should be original, innovative and should not have been presented elsewhere. Applications must be made by submitting an abstract. Each presenter will be allowed 12 min for presentation and discussion.

3. Poster Presentation of Research
   The abstract must be original, and neither has been published nor is under consideration by another journal. Those that are not relevant to Endodontology, are over-length or technically deficient will be rejected. Applications must be made by submitting an abstract.

4. Table Clinics or Videos
   Colleagues are invited to present a novel clinical procedure or technique or a special feature of an endodontically related syndrome. In this session, slides, models, radiographs and videos may be used. These 10 minutes presentations shall be given on a one-one basis or to a small audience. An abstract is required.

   The Scientific Committee will endeavour to schedule abstracts according to authors’ preferences but reserves the right to decide on the final form of presentation.

Abstract format

1. Size: The abstract should not exceed 250 words.
2. Style: The abstract must be typed in English in Times New Roman 11pt and will be adjusted in size for printing. Abstracts should not contain figures or tables.
2.a. Free Lectures and Table Clinics or Videos
   The abstracts should provide a brief outline of the material to be presented.
2.b. Oral and Poster Presentations of Research
   The abstract should include the aim of the study and an outline of the methodology, results and conclusions.
CALL FOR PAPERS

How to submit
Papers should be submitted only on line at www.IFEA2010-athens.com. The on line system will take you step by step through the submission of your abstract.

Abstract Sample for Oral or Poster Presentation
Abstract samples for the presentations can be found at the Congress website: www.IFEA2010-athens.com

Acceptance / Rejection of Presentation
The Scientific Committee will review all submitted abstracts. Selected abstracts will be presented as Oral or Poster presentations or Free Lectures or Table Clinic or Video. Authors of abstracts accepted for presentation will receive notification and information regarding their presentation, by June 1st, 2010.

Oral Presentations
All authors will be informed in writing of their presentation time. Each presentation should not exceed 8 minutes plus 2 minutes discussion. All Congress Halls will be at the Athens Hilton Hotel, and will be equipped with data video projector for Power Point presentations, laser pointers etc.

Poster Presentations
Posters will be gathered, numbered and listed according to the Scientific Committee’s instructions. Posters will be affixed, discussed and removed on the dates and at the times, which will be communicated to authors. Posters Size (portrait): Maximum width: 90 cm, Maximum Height 120 cm. Only scotch tape and self-adhesive pads are allowed.

PC Reception
A PC reception desk for acceptance and checking of PC disks will be located nearby the Congress Halls. All USB or PC disks should be clearly labelled with the author’s name and the respective session. Speakers are kindly requested to provide their USB or PC disks at least 1 hour prior to their respective presentation.

Book of Abstracts
A CD containing all abstracts and a list of Authors in alphabetical order will be distributed to all registrants when they collect their Congress kit, at the registration desk.

Certificate of Attendance
A certificate of attendance will be given to each registrant participant, during Congress.

Continuing Education Credits
Attendance at the Congress Scientific Sessions will qualify for C.E.C. The number of hours will be confirmed on release of the full programme. Delegates will be able to download attendance certificates from the website.
