

In the NEWS

For the first time at an ESE biennial congress e-poster boards were used to display the clinical posters. The e-poster boards allow posters to be viewed on a large screen and mean that participants do not have to print posters and display them on conventional boards.

The winner of the Clinical Poster prize competition at the ESE congress in Brussels was A Dembinskaite. The prize included a certificate and 250 Euros. Details of the project: *Dembinskaite A, Veberiene R, Machiulskiene V. LUHS, Faculty of Odontology, Department of Dental and Oral Pathology, Kaunas, Lithuania. Successful endodontic and surgical treatment of dens invaginatus with infected invagination and vital pulp: a case report.

The clinical posters can be viewed and downloaded at:
