New ESE video available on YouTube

ENDODONTIC TREATMENT

The Executive Board are delighted to announce the launch of the first ESE video aimed at patients that describes the various endodontic treatments that can be provided by dentists.

The video is on YouTube with English subtitles and English voice-over. In time, the video will be available in several other languages.

Visit: <https://www.youtube.com/watch?v=W5PLJWd097I&t=5s>

Please share with patients for them to learn more about the wide range of endodontic treatments that dentists can provide and how natural teeth with pulp and periapical conditions can be saved to enhance the quality of patient's lives.
